- 2 Our Results/Contribution
 - Main Results
 - Basic Ideas for Proofs/Implementation

Outlined

The project management.

How to build risk measures.

- Resources and how to take care of them because they are the project.
- Tasks and how to organize them and build reliable indicators.
- Budget and how to make sure it's tightly managed.
- The Calendar that help you see the future of your project.
- The Risks and their criticality.
- The deliverables that you will be able to sell to get more budget.
- The tools that you need to masterize to build the project and organize it
- The tools that you need to masterize to build the project and organize it

Make Titles Informative.

You can create overlays. . .

- using the `pause` command:
 - First item.
 - Second item.
- using overlay specifications:
 - First item.
 - Second item.
- using the general `uncover` command:
 - First item.
 - Second item.

Summary

- The **first main message** of your talk in one or two lines.
- The **second main message** of your talk in one or two lines.
- Perhaps a **third message**, but not more than that.
- Outlook
 - Something you haven't solved.
 - Something else you haven't solved.
